FOREWORD

Foreword

Jang Moo Lee, Ph.D.
President
(April 1, 2021–March 31, 2025)

The National Academy of Sciences (NAS), Republic of Korea, promotes academic research and creativity in scientific development. It also participates in the various international academic activities of many international organizations such as ISC (International Science Council), UAI (Union Académique Internationale), IAP (InterAcademy Partnership), PSA (Pacific Science Association), SCA (Science Council of Asia), and IFS (International Foundation for Science). The NAS has been cooperating with the National Institute of Korean History to carry out the UAI-patronized project of the English translation of Annals of the Joseon Dynasty since 2017.

The NAS has established collaborative relationships with 14 foreign academies. These include the Israel Academy of Sciences and Humanities, Académie des Sciences (Institut de France), Chinese Academy of Sciences, Chinese Academy of Social Sciences, National Academy of Sciences, U.S.A., the Royal Society of London, the British Academy, the Norwegian Academy of Sciences and Letters, the Royal Swedish Academy of Letters, the Mongolian Academy of Sciences, the Japan Academy, Croatian Academy of Science and Arts, Göttingen Academy of Sciences and Humanities, and the Australian Academy of Humanities. In particular, the NAS has been holding an annual academic forum with the Japan Academy every year for the past 18 years. The NAS also actively pursues mutual academic exchanges and research collaborations with other foreign academies.

This book provides general information about the NAS' major activities, the profiles of its members, operational regulations including the election of members, granting of academic awards, and funding of research grants. I hope this book serves as a way to help foreign scholars learn about the NAS and its activities.

4 | Organization

> Table of Organization

▶ General Assembly

As the top decision-making body, the General Assembly deliberates over and resolves the highest priorities for managing the NAS, such as approving newly elected members, ratifying the NAS Award recipients, electing president and vice-president, and legislating and amending rules. It is held in March and July, and also whenever deemed necessary.

▶ Division Meetings

The NAS consists of two divisions: the Humanities & Social Sciences Division and the Natural Sciences Division. Division meetings are held to elect new members and division directors and to select NAS Award recipients.

▶ Board of Directors

The Board of Directors is composed of 4 executive directors (President, Vice-President, 2 Division Directors) and 11 Subdivision Heads. The Board reviews and votes on the matters delegated by or proposed to the General Assembly and also such matters as deemed necessary by the President. Both President and Vice-President are elected by the General Assembly and their term of office is two years and renewable once. Directors of the Humanities & Social Sciences Division and the Natural Sciences Division are elected at the respective Division meetings and their term of office is one year and renewable once. Subdivision heads are elected by the members of each subdivision and their term of office is one year and renewable once.

▶ Subdivision Meetings

All members of the NAS belong to a subdivision based on their field of study. Each subdivision holds 7 meetings a year to discuss academic research matters as well as to screen new NAS member candidates and NAS Award candidates.

➤ The Screening Committees of the NAS Award

The recipients of the NAS Award are selected through a 3-step screening process: the preliminary screening by each subdivision, the divisional review by the Screening Committees of the two divisions, and the final decision by the Comprehensive Deliberation Committee of the Board of Directors. Each screening committee is composed of 15 or less members and the Comprehensive Deliberation Committee consists of President, Vice-President, 2 Division Directors and 11 Subdivision Heads.

➤ International Exchange & Cooperation Committee

The International Exchange & Cooperation Committee deals with the tasks related to the NAS affiliated international academic organizations and activities such as collecting materials and data on international academic awards.

➤ Publication Committee

The Publication Committee consists of president, vice-president, two division directors, and eleven members from each subdivision. The Committee is in charge of the NAS publication: setting up a basic plan, appointing writers and referees, and overseeing other editorial matters.

➤ Ethics Committee

The Ethics Committee consists of vice-president and eleven members from each subdivision. It is to take a disciplinary measure against a member who has damaged the honor and dignity of the NAS.

➤ Secretariat of the NAS

Secretariat of the NAS consists of General Affairs Division and Academic Promotion Division, is affiliated to the Ministry of Education, and carries out the administrative affairs of the NAS.

01 The NAS Award

The NAS Award was established in 1955, in accordance with the Culture Protection Act, to further the advancement of science in Korea. The National Academy of Sciences presents the NAS Awards to Korean scholars and scientists who have made significant contributions to the

development of sciences through research and academic pursuits. A total of up to 8 awardees are chosen from Humanities & Social Sciences Division and the Natural Science Division each year.

As of 2023, a total of 285 scholars received the NAS award. Awardees are presented with a Letter of Citation and an emblem, plus a cash prize of 100 million won (approximately USD 76,000).

The selection of recipients is made in accordance with the “Award Regulations of the National Academy of Sciences Prize”. All the successive recipients of the NAS Award are listed.

The NAS plans to increase the number of recipients in the future.

02 The International Symposium

The NAS holds its annual International Symposium in October. The symposium is intended for academic knowledge exchange and promotion of goodwill among the scholars of the world. The 1st International Symposium was held in 1960 and the 48th

International Symposium was held on October 14, 2022, in the Grand Conference Hall of the NAS, with a theme of “A New Paradigm of Technical Development in Agricultural and Life Sciences, and Fisheries Science”.

03 The Korea–Japan Science Forum

The NAS holds the Korea-Japan Science Forum to enhance academic activities and to promote the mutual understanding and cooperation between the two academies. Under the theme of “Economics and Engineering”, the 15th Korea-Japan Science Forum was held in Tokyo, Japan from September 20 to 22, 2023. The 16th Korea-Japan Science Forum will be held in Seoul from September 4 to 6, 2024.

04 The NAS Seminar and Conference

To promote the development of science in Korea and to advise the Government for the formulation of enlightened policies the NAS hosts Academic Research Seminar and Specific Research Project Academic Conference every year. The objective of the seminar and conference is to derive maximum advantage from the latest results of scientific researches as well as the expertise and professional knowhow of the NAS members. The Academic Seminar and the Specific Research Project Academic Conference are held in May and November, respectively. Besides the above seminar and conference, each subdivision seminar is held once a year in April or May.

Academic Research Seminar, 2023

05 The NAS Research Grants

As a measure of continuous support for research activities of its members, the NAS Research Foundation provides about 20 NAS members with research grants every year. The participants of these projects present their research results through the Subdivision Seminar, Academic Research Seminar, or Specific Research Project Seminar. The research results are also published in the Journal of the NAS and distributed among domestic and overseas academic institutions. The NAS conveys the

findings of the Specific Research Project Seminar to relevant government ministries for their reference and utilization.

06 Collaborations with Foreign Academies

The NAS is making every effort to establish collaborative relationship with foreign academies for the development and exchanges of sciences. In 1990 cooperative relations protocols were established between the NAS and the Israel Academy of Sciences and Humanities and in 1992 between the NAS and Académie des Sciences of France. In 1993 the NAS signed similar protocols with the Chinese Academy of Sciences, the Chinese Academy of Social Sciences, the National Academy of Sciences of the United States, and the Royal Society of London. Cooperative relationship was also established between the NAS and the British Academy in 1995 and between the NAS and the Norwegian Academy of Science and Letters in 1996. Again in 1997 the NAS signed protocols for academic cooperation with the Royal Swedish Academy of Letters, History and Antiquities and with the Mongolian Academy of Sciences. In 1998 the NAS exchanged a letter of cooperation with the Royal Swedish Academy of Sciences and the Memorandum of Agreement on academic exchanges with the Japan Academy. In 2010 the NAS signed a memorandum of understanding for scientific cooperation with the Croatian Academy of Sciences and Arts. In 2011, a letter of intent was exchanged between the NAS and the Göttingen Academy of Sciences and Humanities and a follow-up cooperative agreement was signed in 2012. Most recently, the NAS signed a memorandum of understanding for scientific cooperation with the Australian Academy of Humanities in 2016.

07 Affiliated Research Institutes

In 1990, protocols for academic cooperation were signed between the NAS and various research institutes including the Academy of Korean Studies and the Korea Advanced Institute of Science and Technology. In 2012, the NAS established a cooperative agreement with the National Institute of Korean History for joint research projects. *The English Translation of the Veritable Records of the Joseon Dynasty* is currently underway as part of UAI-patronized projects. Active academic discussions and exchanges of information often take place at international, as well as national, levels.

08 Participations in International Conferences

To help promote international academic cooperation and enhance academic programs at home, the NAS participates in the meetings of various international academic organizations on behalf of the Republic of Korea.

These organizations include Pacific Science Association (PSA), International Science Council (ISC, created in 2018 from a merger of the International Council for Science and the International Social Science Council), the International Foundation for Science (IFS), Union Académique Internationale (UAI), InterAcademy Partnership (IAP, IAMP, IAC), and Science Council of Asia (SCA).

- 1) The NAS joined International Foundation for Science (IFS) in 1973 and it took part in its triennial general meeting from 1978 to 1997.
- 2) The NAS joined International Council for Science (ICSU) at its 9th general meeting in 1961, and has ever since been dispatching two delegates to its general assembly held every three years.
- 3) The NAS delegation attends Pacific Science Association (PSA) Congresses, PSC (Pacific Science Congresses) and PSIC (Pacific Science Inter-Congresses), contributing to the promotion of academic exchanges in the region since the NAS joined PSA at its 9th meeting in 1957. Dr. Tai Whan Shin was elected as

PSA President in 1983. Korea held its 16th General Meeting in Seoul in 1987. Dr. Sang-Dai Park was elected Vice-President of PSA in 2016.

- 4) Since it joined Union Académique Internationale (UAI) in 1977, the NAS has been sending two delegates to its meeting every year. As part of UAI's research activities, the NAS published *A Korean Language Atlas* in 1993. Another research project *English Translation of the Veritable Records of the Joseon Dynasty* was accepted as a UAI Enterprise in 2012. Dr. Tae-Jin Yi was elected as bureau member of UAI and served from 2015 to 2019.
- 5) Since 1995, the NAS has actively participated in International Geosphere-Biosphere Programme (IGBP) activities. The NAS supported the 9th SC-IGBP Meeting and International Workshop in the Asia region held in Seoul respectively on October 18-22 and November 11-13, 1996.
- 6) Since the NAS joined InterAcademy Partnership (IAP) in 2000, it has been sending its delegation to attend its conference.
- 7) The NAS joined InterAcademy Medical Panel (IAMP, now IAP for Health) in 2000, and participated in the IAMP's general assembly.
- 8) Since the NAS joined the Science Council of Asia (SCA) in 2000, its delegation have attended the SCA's general assembly meetings and conferences. Dr. Ho Wang Lee was elected president of SCA in 2003. The 4th SCA Conference was hosted by the NAS at Westin Chosun Hotel in Seoul in 2004. In 2021, Dr. Jang Moo Lee was elected president of SCA and hosted the 22nd SCA General Assembly and Conference in Seoul in 2023.
- 9) The NAS joined International Social Science Council (ISSC) in 2010, and has been actively participating in the ISSC's general assembly and symposia.
- 10) The NAS joined International Science Council (ISC) in 2018 as the International Council for Science (ICSU) and the International Social Science Council (ISSC) have merged to form the International Science Council. Dr. Jisoon Lee was re-elected as a member of Advisory Bodies (Committee for Finance) of ISC in 2022.

In the years ahead the NAS will attempt to actively take part in research projects conducted by the aforementioned international academic organizations. Through this international collaboration the NAS hopes to share, above all else, the vision of promoting human welfare with international science organizations.

09 The Establishment of NAS Research Foundation

The NAS Research Foundation was established in April 1986 to provide substantial assistance for the NAS members' academic activities. The basic assets of the Foundation were created with contributions from the NAS members as well as from economic organizations. The President of the NAS serves as Chairperson of the NAS Research Foundation. Directors include former NAS Presidents and public personages. The major programs of the Foundation are to provide the NAS members with research grants, to subsidize their academic meetings and exchanges with foreign scholars, to help them participate in international conferences, and to support their academic publications.

The International Academic Activities Participation Support Project Promotion Plan set by the NAS Research Foundation in February of 2018 acts as a measure of active support for international academic activities in which NAS members individually participate. This serves to achieve a synergy effect with existing projects as well as intensifying cooperation with international academies.

This plan includes support for NAS members participating in various international academic activities such as presentation of research papers, provision of guest lectures, participation in designated debates at international academic conferences, and publication of papers in major foreign journals listed in SCI and SCOPUS. The NAS Research Foundation allocates 2,000,000 won per selected member as a subsidy for participation of international academic activities. The promotion plan will be announced in February through the subdivision meetings. Recommended members by subdivision meetings will then submit an application form accompanied by activity reports in November, followed by recipient selection as reviewed by the International Exchange & Cooperation Committee in December.

10 NAS Publications

To facilitate various academic publications and to review the papers contributed to the *NAS Journal*, the NAS has created “Regulations of the NAS Publications Committee”.

- 1) *The NAS Journal*, published annually, consists of two volumes: one for the Humanities and Social Sciences and the other for the Natural Sciences. The Journal carries two theses from each of the eleven subdivisions of the NAS. Since its first issue that came out in 1959, 62nd volumes have so far been published.
- 2) The NAS publishes a series of “*Trends and Issues of Academic Research*” (in Korean) to provide scholars an in-depth perspective of current trends and controversial issues of academic research and to shed light on the future research in orientation. The first one of this series was on Economics and Business Administration in 2011. The last one was on Philosophy, Aesthetics, Religion, Psychology, and Pedagogy in 2022.
- 3) *NAS Academic Research Series* is to unite and furnish members’ research results for the next generation. Started in 2017, it is issued every two years. Authors are expected to promote academic communication with young scientists.
- 4) *Proceedings of International Symposium*, available in Korean and English, have been published since the 3rd International Symposium held in 1975. They are also distributed to foreign academies, major universities and institutes at home and abroad.
- 5) *Proceedings of Korea-Japan Science Forum*, available in Korean and Japanese, was first published in 2006. Since the 2nd Korea-Japan Science Forum in 2007, it has been published every other year when the NAS hosts the Forum.
- 6) *The Report on International Academic Exchanges and Cooperation* has been

published every year since 2010. As the NAS participates in the international conferences of various international academic organizations on behalf of the Republic of Korea, it includes the participants reports, current global academic issues and the research paper presented in the conferences.

- 7) *The NAS Monthly Newsletter* has been published since July 1993: it contains members' articles, report of international academic exchange, and notice of the NAS official schedules.
- 8) *The NAS Bulletin* is issued every year. The Annual Bulletin contains a brief introduction of the NAS and its major annual project reports. The outcomes of membership seminars and individual activities are also included. In 2023, the 63th issue of the Bulletin was published (its first one in 1957).
- 9) *The NAS Brochure* is published every other year to provide brief information on the NAS activities and its members. It is available in Korean and English separately.
- 10) *The NAS Catalog* provides understanding about the NAS in detail. This book is published every odd year in English.

11 Supporting Outstanding Books for Basic Science Promotion

The NAS has been undertaking the 'Program of the Selection and Distribution of Outstanding Books' delegated by the Ministry of Education as part of the Ministry's Basic Sciences Promotion Project. Books in the fields of humanities, social and natural sciences, and Korean studies are eligible for selection. Through a process of rigorous evaluation the NAS annually selects some 300 outstanding books. In 2023, the NAS selected 299 outstanding books. The NAS purchases those selected books and distributes them to some 300 universities throughout the nation.

2. Regulations on the NAS Award

Formulated under NAS Regulation No. 20, December 31, 1974;
16th Amendment under NAS Regulation No. 93, July 29, 2020

Article 1 (Purpose)

These regulations are to prescribe matters concerning the prize to be awarded by the NAS to help promote the academic advancement in accordance with the provision of Article 14 of the NAS Act.

Article 2 (Name)

The prize shall be called National Academy of Sciences Award (hereinafter referred to as the NAS Award).

Article 3 (Date of Presentation)

1. The NAS Award shall be presented on September 17 every year. However, when the day falls on a public holiday, the presentation shall take place on the following day.
2. In special circumstances, the date of the presentation may be changed by the discretion of the President of the NAS (hereinafter referred to as the President).

Article 4 (Award Requirements and Categories)

1. The NAS Award shall be awarded to the nationals of the Republic of Korea who have made significant contributions to the academic and social development by evaluating their concentrated and continuous research works on specific subject matters from the perspective of originality and contributions.
2. The NAS members are not eligible for the NAS Award, except those who become members of the NAS after having already been chosen as NAS Awardees.
3. Those who have violated research ethics cannot be a candidate for NAS Award and the award may be revoked if the information in the recommendations found to be false or an awardee harms the honor and authority of the NAS Award by other unlawful ways.
4. In accordance with Paragraph (1), the NAS Award shall be presented to four separate fields, namely Humanities, Social Sciences, Basic Natural Sciences, and Applied Natural Sciences.

5. Award recipients are annually eight in number and up to two award candidates may be selected in each of the four fields specified in Paragraph 4 above.

Article 5 (Recommendation of Candidates)

1. The President shall request, not later than October 31 of the previous year of the presentation, the heads of the academic institutions and organizations and the NAS Award Recommendation Committee to recommend eligible candidates for the NAS Award as specified in Attachment 1.
2. The President, in order to seek well-qualified NAS Award candidates and elevate objectivity and effectiveness of candidate selection, shall set up the NAS Award Recommendation Committee, whose function and management shall be separately stipulated.
3. The President shall receive a list of the recommended candidates for the NAS Award from those prescribed in Paragraph (1) not later than the end of December of the previous year of the presentation.
4. The President shall have the NAS Award Recommendation Committee consolidate the candidates and refer the candidate list to the related subdivisions.

Article 6 (Preview by Subdivision Meeting)

1. A subdivision meeting shall preview articles and/or publications, and other relevant matters of the candidates and notify the President the result of the preview, upon which the President shall refer it to the Screening Committee of each Division as prescribed in Article 9.
2. A subdivision meeting may recommend evaluating members relevant to the screening committee, and the preview by subdivision meeting shall be convened no more than twice.
3. The result of the preview will be decided by the attendance of a simple majority of the subdivision members and by the approval of the majority of the members attended.
4. Each subdivision shall choose not more than two from among the candidates and refer him/her or them to the Screening Committee.

Article 7 (Divisional Screening Committee)

1. There shall be four screening committees; namely the Humanities Division Screening Committee, the Social Sciences Division Screening

- Committee, the Basic Natural Sciences Division Screening Committee and the Applied Natural Sciences Division Screening Committee.
2. Under Paragraph 1 the screening committees aforesaid shall each be composed of 5 or more, 16 or less, including the chairperson of the committee. The President, upon receiving the result of the subdivision meetings and the recommendation of the Director of each division, shall organize the Screening Committees. The Director of Humanities & Social Sciences Division shall serve as an ex officio member of the Humanities Division Screening Committee and the Social Sciences Screening Committee; the Director of Natural Sciences Division shall serve as an ex officio member of the Basic Natural Sciences Division Screening Committee and the Applied Natural Sciences Division Screening Committee.
 3. Upon organizing Divisional Screening Committees under Paragraph 2, each subdivision of the NAS shall recommend 1 internal member and 2 external experts in each academic field of candidates for the screening committee and the President shall appoint members. Provided that head of each division shall recommend external experts with the help of the NAS Recommendation Committee.
 4. Each Divisional Screening Committee shall conclude its screenings by May 15 every year.
 5. Each Divisional Screening Committee shall review papers or books of candidates, submitted documents and other matters necessary to be checked and evaluate the candidate's research works from the perspective of their originality and contribution to academic and social development.
 6. The meetings of each Screening Committee shall be held three times; additional meetings may be convened, if necessary.
 7. The Chairperson of each Screening Committee shall be named by the President from among the NAS jury members. The Chairperson shall preside at the committee meetings.
 8. Each meeting of the Screening Committee shall be convened by the Chairperson of the committee. The attendance of more than two-thirds of the committee members and the concurrence of more than the majority of the members present shall be necessary for making any decision.
 9. Each Screening Committee shall select not more than two prospective candidates for the NAS Award and notify the Chairperson of the result of the Comprehensive Deliberation Committee, as prescribed in Article 7.

Article 8 (Special Screening Committee)

The Vice-President shall serve as the Chairperson of the Special Screening Committee prescribed in Paragraph 4, Article 4. The Committee shall be composed of six or less members recommended by the Chairperson and appointed by the President. It shall conclude its screenings by May 31 every year.

Article 9 (Comprehensive Deliberation Committee)

1. The meeting of the Comprehensive Deliberation Committee shall conduct the comprehensive deliberation for the prospective candidate prescribed in Article 7, Paragraph 8.
2. The Comprehensive Deliberation Committee shall be composed of President and Vice-president, two Division Directors and eleven subdivision Heads of the NAS. The President shall serve as the Chairperson.
3. The attendance of more than two-thirds of the Committee members and the concurrence of more than two-thirds of the members present shall be necessary for the decision of the Committee to be made.
4. The Committee shall conclude the deliberation by June 30 of the year and the Chairperson should notify, without any delay, the decision of the Committee to the Directors of both the Humanities and Social Sciences Division and the Natural Sciences Division.

Article 10 (Selection of Awardees)

1. Each Division Meeting shall select, with the attendance of a simple majority of the members and the concurrence of a simple majority of those present, recipients of the Award from among the candidates as prescribed in Article 7, Paragraph 4. The number of recipients cannot exceed that which is prescribed in Article 4, Paragraph 4.
2. Each Division Director shall, without any delay, report to the President the prospective candidates thus selected.

Article 11 (Ratification of Awardees)

1. The President shall refer the list of Awardees notified by the Division Directors as prescribed in Article 10, Paragraph 2, to the General Assembly of the NAS for the ratification not later than thirty days before the date of the Award Ceremony.
2. The ratification as prescribed in Paragraph 1 shall be effective with the

concurrence of the simple majority of the NAS members present.

Article 12 (Exclusion)

Recommenders, relatives, advisors for master's and doctorate degree and co-authors shall not be a member of the Divisional Screening Committees.

ADDENDUM

(NAS Regulation No. 48, July 26, 1990)

These Regulations shall be enforced on the date of their promulgation.

4. Regulations on the Provision of the NAS Academic Research and Policy Research Grants

Formulated under NAS Regulation No. 33, December 28, 1981
3rd Amendment under NAS Regulation No. 45, October 19, 2010

Article 1 (Purpose)

The purpose of these Regulations is to govern matters related to the provision on the NAS academic research and policy research grants with a view to fulfilling the function provided for in Article 2 of the NAS Act.

Article 2 (Recipients)

Recipients of the NAS academic research and policy research grants (hereinafter referred to as research grants) shall be the members of the NAS. If a need for joint research by more than one person arises, a person or persons who are not members of the Academy may participate. In this case, however, a member of the NAS shall be the joint research team leader.

Article 3 (Selection of Projects, etc.)

1. Projects, subject to the receipt of the research grants, and their researchers shall be selected by the NAS Board of Directors (hereinafter referred to as Board of Directors).
2. The President of the NAS shall assign research projects to those selected as prescribed in Paragraph (1).

Article 4 (Forwarding of Research Plan)

A person or persons to whom a research project has been assigned under the provisions of Article 3 shall furnish the President of the NAS with a research plan in the form given in Attached Sheet No. 1.

Article 5 (Payment of Research Grants)

1. Upon receiving a research plan as prescribed in Article 4, the President of the NAS shall determine the amount of research grants through deliberations by the Board of Directors.

2. Research grants shall be paid in two installments annually. However, they may be paid in a lump sum in case the Board of Directors so decides.

Article 6 (Prohibition of Using Research Grants for Other Purposes)

The research grants paid shall not be used for purposes other than approved research projects.

Article 7 (Change in Research Plan)

1. When persons who have been paid research grants wish to change the research team leader or research period, they shall submit a request for approval of the change in the form given in Attached Sheet No. 2 to the President.
2. The President shall refer the submitted request for approval of any change in research plans prescribed in Paragraph 1 to the Board of Directors for approval.

Article 8 (Interim Report)

1. Persons, who have been paid research grants, shall submit an interim report to the President within seven months from the time of the receipt of the grants by using the form given in Attached Sheet No. 3.
2. Upon the receipt of an interim report prescribed in Paragraph 1, the President shall determine whether to pay the second installment of the fund through deliberations by the Board of Directors.

Article 9 (Report on the Research Result)

1. Persons, who have been paid research grants, shall submit a summary report on the research result and the manuscript of their resultant theses to the President within a year from the time of the receipt of the grants by using the form given in Attached Sheet No. 4.
2. If persons, who have been paid research grants, fail to submit a summary report on the result of research and the manuscript of their resultant theses within the period prescribed in Paragraph 1 or within a period approved under the provisions of Article 7, they shall refund the research grant depending on the decision of the Board of Directors.
3. Persons who have been paid research grants shall not, without the approval of the Board of Directors, make public or publish the results of the research in a journal published by an organization other than

the NAS.

4. When the result of research projects is printed in one of the NAS publications, there shall be no payment for it.

Article 10 (Disposition of Results of Research)

The President shall, through deliberations by the Board of Directors, take measures as follows:

1. To publish the research results either in the NAS Journal or in the NAS academic research report.
2. To make policy recommendation based on them.
3. To use them for an academic seminar sponsored by the NAS.

ADDENDUM

(NAS Regulation No. 33, December 28, 1981)

These Regulations shall come into force on the date of their promulgation.

ADDENDUM

(NAS Regulation No. 45, January 24, 1989)

These Regulations shall come into force on the date of their promulgation.

5. Regulations on the NAS International Exchange & Cooperation Committee

Formulated under NAS Regulation No. 69, March 13, 2009

Article 1 (Purpose)

The purpose of these regulations is to prescribe overall matters of NAS international exchange activities such as international academic cooperation and the gathering of information on international academic awards in accordance with Article 15 of the Act of the NAS.

Article 2 (Function)

The Committee shall deliberate and decide the following matters:

1. The academic exchange and cooperation with foreign science academies and international science organizations
2. The dispatch of delegation to international science organizations
3. The nomination of candidates for international academic award and cooperation with relevant institutions.

Article 3 (Composition)

1. The Committee shall be composed of fourteen members including one chairperson.
2. The Vice-President shall be the chairperson of the Committee.
3. The directors of two NAS divisions shall be the ex-officio members of the Committee.
4. The President shall nominate one member each from the 11 NAS subdivisions.
5. The term of the members is two years and is renewable.
6. The President shall fill a vacancy by nominating a member from the relevant NAS subdivision and the newly nominated member shall serve for the remaining term.

Article 4 (Chairperson)

1. The chairperson shall preside over Committee affairs and represent the Committee.
2. The oldest ex-officio member shall preside at the meeting in case the chairperson is unable to do so.

Article 5 (Meeting)

1. A Committee meeting shall be convened by the chairperson when either the chairperson deems it necessary or it is requested by more than half of the Committee members.
2. The decision of the Committee shall be made by the attendance of a simple majority of the Committee members and the concurrence of a simple majority of the attendants. In case of a tie, the presiding chairperson shall exercise his casting vote.

Article 6 (Executive Council)

1. The Executive Council shall be composed of seven or less members including chairperson and ex-officio members and shall promote international academic exchange and cooperation in addition to dispatching delegation to international science conferences.
2. The term of Executive Council members is one year and is renewable.

Article 7 (Secretary, Clerk)

1. The Committee shall be provided with a secretary and a clerk.
2. The director of Science Promotion Division shall serve as the secretary and the President shall appoint a clerk from among the staffs of Science Promotion Division.
3. The secretary shall deal with the Committee matters according to the instructions of the chairperson, and the clerk shall assist the secretary.

ADDENDUM

1. These regulations of International Exchange and Cooperation Committee shall be enforced on the date of their promulgation.
2. (Repeal of existing related Regulations) The "Regulations on the NAS Korea Committees of International Academic Organizations (NAS Regulation No. 67, March 9, 2007)" as well as the "Regulation of NAS International Cooperation (NAS Regulations No. 61, April 1, 2002)" shall be repealed with the enforcement of these Regulations.

6. Regulations on the International Academic Activities Participation Support Project

Established, February 8, 2018

Amended, February 9, 2023

Article 1 (Purpose)

These guidelines stipulate the matters required for the provision of the subsidy for the “International Academic Activities Participation Support Project” (hereinafter, referred to as the Subsidy).

Article 2 (Recipient)

The project is designed to support the NAS members who participated in various academic activities held abroad (thesis presentation, guest lecture, designated debate, designated Chairperson) or who published papers in major foreign journals listed in SCI and Scopus, in their individual capacity other than through official international academic activities of the NAS.

1. ‘Thesis Presentation’ refers to where the member performed research in his or her own capacity and presented research results at an international academic conference regardless of the “International Academic Organization Project Support Program” of the NAS.
2. ‘Guest Lecture’ refers to where the member is requested by an overseas academic organization to give a lecture on a specialized field.
3. ‘Designated Debate’ refers to where the member gives his or her opinions as a debater designated by the host with respect to academic research presentation. The member should be able to document and submit the essentials of the debate.
4. ‘Designated Chairperson’ refers to the moderator of the entire conference, panel or session. The moderator should be able to document and submit the overall gist.
5. ‘Major foreign journals listed in SCI and Scopus’ refers to academic journals listed in SCIE (Science Citation Index Expanded), SSCI (Social Sciences Citation Index), A&HCI (Arts and Humanities Citation Index) and Scopus searched on the Web of Science, and there should be no copyright issues in publishing the abstract of the submitted paper in the International Academic Exchange Report.

Article 3 (Recommendation of Recipients)

The head of the special interest group shall recommend one candidate each year through consultation with the special interest group. However, if there is any carry-over in accordance with Article 7, it is possible to recommend additional candidates within the limitation of the carry-over accumulated in each group.

Article 4 (Submission of Application, etc.)

The person who was recommended by the special interest group in accordance with Article 3 shall submit the application form (Annex 1 Form) and an activity report (Annex 2 Form) to the President of the NAS before the deadline.

Article 5 (Review Committee)

A committee to review the International Academic Activity Participation Support Project shall be established (hereinafter, referred to as Review Committee).

1. The Review Committee shall be composed of the International Exchange and Cooperation Committee or the International Exchange and Cooperation Working Committee to review the activity report and so forth.
2. The head of the Review Committee assumes the head of the International Exchange and Cooperation Committee.
3. Items on the agenda at the meeting are resolved by the attendance of a majority of members and the majority vote of attending members.

Article 6 (Provision of Subsidy)

In accordance with Article 4, the President of the NAS shall receive application forms, which will be reviewed by the Review Committee, select prospective recipients for each special interest group, and provide 2,000,000 won for each person as a subsidy for participating in international academic activities.

Article 7 (Handling of Unused Subsidy)

The subsidy allocated to each group may be carried over to the next year for two consecutive years if there are no candidates, but if the carry-over is still not used in the third year as less than two candidates applied, thereby generating any unused amounts, such amounts shall be returned to the NAS.

Article 8 (Sharing of Outcome)

The research paper and manuscript of the funded activity will be published in the International Academic Exchange Report, and a manuscript fee is not separately provided.

ADDENDUM

(Enforcement Date) These guidelines shall come into effect from February 8, 2018.

ADDENDUM

(Enforcement Date) These guidelines shall come into effect from February 9, 2023.

7. Regulations on the Election of the NAS Honorary Members

Formulated under NAS Regulation No. 65, July 15, 2003
Partially revised under NAS Regulations No. 99, July 14, 2023

Article 1 (Purpose)

The purpose of these Regulations is to prescribe necessary matters concerning the appointment of Honorary Members, etc. in accordance with Article 5 of the Regulation on the Appointment, etc. of the NAS Honorary Members (hereinafter referred to as the Appointment Regulations).

Article 2 (Composition)

1. The Honorary Member Qualification Screening Committee shall be composed of fifteen committeemen/committeewomen: President and Vice-President, 2 Division Directors, and 11 Subdivision Heads.
2. The Chairperson of the Honorary Member Qualification Screening Committee shall be the President of the NAS.
3. A majority of the committeemen/committeewomen of the Honorary Member Qualification Screening Committee shall constitute a quorum of the meeting thereof and the meeting shall make decisions by a simple majority of the committeemen/committeewomen present.

Article 3 (Function)

The function of the Honorary Member Qualification Screening Committee shall be as follows:

1. Designation of academic organizations to recommend honorary members
2. Comprehensive screening of new candidates for the honorary membership
3. Screening and decisions on reappointment of honorary membership candidates
4. Other matters concerning the operation of the Honorary Member Qualification Screening Committee.

Article 4 (Qualification for Honorary Membership)

Qualified are foreign scholars who are internationally recognized to have produced an outstanding academic research achievement and who were awarded a prize of international authority or have accomplished such an excellent research achievement as recognized internationally.

Article 5 (Recommendation of Candidates for Honorary Membership)

1. Any NAS member or the head of any relevant academic organization designated by the NAS may recommend a candidate for the honorary membership.
2. Any one who intends to recommend a candidate for the honorary membership shall submit a written recommendation of candidates for the honorary membership (attached Form I) to the President of the NAS.
3. The Chairperson of the Honorary Member Qualification Screening Committee may, for the purpose of conducting any screening of a recommended candidate for the honorary membership, require recommenders of candidates to submit necessary materials.

Article 6 (Screening by Each Subdivision)

1. The President of the NAS shall require the related subdivision to conduct screening candidates recommended for the honorary membership, and a majority of the subdivision members shall constitute a quorum of the meeting thereof and the meeting shall make decisions by a simple majority of the members present.
2. The Head of the subdivision concerned shall notify the President of the result of the screening.

Article 7 (Screening by the Honorary Member Screening Committee)

The Honorary Member Screening Committee shall comprehensively screen the qualification of the honorary member candidates and select honorary members by vote. In case the number of qualified persons exceeds the quota allocated to the honorary members, which is due to the voting result of two or more candidates having acquired the same number of votes, another voting of those candidates involved shall be conducted. If and when this final vote turns out to be indecisive, the older (or oldest) candidate shall be chosen.

Article 8 (Decisions of the Division Meeting)

Articles 11 to 13 of the Regulations on the Election of Members of the NAS shall apply *mutatis mutandis* to matters concerning “Decisions of the Division Meeting”.

Article 9 (Approval of the General Assembly)

Article 14, Paragraph 1 of the Regulations on the Election of Members of the NAS shall apply *mutatis mutandis* to matters concerning “Approval of the General Assembly”.

Article 10 (Reappointment Honorary Membership)

1. Reappointment of Honorary Members shall be determined by the approval of the General Assembly through recommendation by the head of the subdivision and after deliberation and resolution by the Honorary Member Screening Committee.
2. Articles 7 and 9 shall apply *mutatis mutandis* to matters concerning paragraph 1.

Article 11 (Notification of the Election of Honorary Members)

If any one is elected honorary member with the ratification of the General Assembly in accordance with Articles 9 and 10, the President of the NAS shall send a written notice to the elected and ratified person without delay.

ADDENDUM

(NAS Regulation No.65, July 15, 2003)

These Regulations shall enter into force on the date of their promulgation.

ADDENDUM

(NAS Regulation No.99, July 14, 2023)

These Regulations shall enter into force on the date of their promulgation.
